

Chem 14D: Spring 2011

Exam Regrade Policies

When to request a regrade?

Request a regrade only if there is a clear and obvious grading error.

How to request a regrade?

Submit your exam directly to Neil (the TAs are not involved), along with a brief type-written note that clearly explains what you believe deserves a regrade.

When is the deadline for submitted a regrade request?

Regrades for Exam 1 must be submitted by 4/29/2011 at 2pm.

Regrades for Exam 2 must be submitted by 5/27/2011 at 2pm.

What else should I know about regrades?

If you submit a regrade request, your entire exam will be subject to regrading. Please consider regrade requests very seriously since your exam score might actually go down rather than improve.

*Approximately 35% of each Exam is photocopied at random...**Don't cheat!!!***
