

All I Do is Substitute by Gabrielle, Jenan, and Sam

All I do is sub, sub, sub, sub-substitute
Got LG on my side, if it's good I'll give it up
And every time I use SN2, backside attack 1 step!

Stereo chem, gets inverted, reacting carbon
R, S, S, R, R, S,
Then there's SN1, 3 steps
And if you goin' in, carbocation is there, make it stable
