

“It’s the OChem-Life”

by Kush B. and Vu N.

I’m standing on the corner rappin’
Thinkin’ & figurin’ out how to do an SN2 reaction
Comin in with a nucleophilic
backside attack
Stereochemical inversion man
now that’s a fact
When doin an SN2 no tertiary carbons
Primary and secondary man
now you’re talkin’
Aprotic solvents boy
that’s for real
Unless we talkin sn1,
now that’s a different deal
It’s o-chem life for us, it’s the o-chem life for us
and you know we love you Garg
even though your class is hard
so give us 5 points
