

“Suit & Tie Remix”
by Andy T., Michael S.

And as long as I've got my nucleophile,
Goin' backside, gunna do it right,
With your leaving group as Iodine,
Let me teach you a few things.

All pressed up in acetone,
Don't use protic cause that's too slow,
Tell me if your substrate's all alone,
That's how $\text{S}_\text{N}2$ swings.

Let me teach you a few things,
Teach you a few things that I love
Yeah we're makin' alcohol
Let me teach you a few things
Teach you a few things that I love.
