

Annual Review in Modern Quantitative Finance

Including Current Aspects of Fintech, Risk and Investments

(SET 1) IN 4 VOLUMES

edited by **Andrey Itkin** (*New York University, New York, USA*)

More details at <https://tinyurl.com/wsarmqf>

We invite submission of research papers, book chapters, and reviews related to recent advances in quantitative finance from all areas of finance, risk management, insurance, fintech, machine learning, artificial intelligence, etc. We encourage submissions that focus on the development of modern quantitative finance models, methodologies, and applications reflecting recent trends in the above-mentioned areas. Topics of particular interest include but are not limited to:

- Quantitative finance, financial engineering, mathematical finance
- Computational finance, methods and problems
- Pricing of securities, trading and market microstructures
- Risk theory and queuing theory with applications in insurance and finance
- Asset and liability management techniques
- Risk measures, solvency and financial instability
- Research in cryptocurrencies and related areas
- Financial machine learning, artificial intelligence and corresponding disciplines
- Fintech including quantum computing, distributed ledgers, etc.
- Econophysics

Submission Instructions

All submissions to Annual Reviews in Modern Quantitative Finance (ARMQF) are handled electronically. Authors must submit their manuscripts online via the World Scientific web-based system (<https://www.editorialmanager.com/wspc-boss>) and indicate that they wish to have their submission to be considered for Annual Review of Modern Quantitative Finance.

New Authors: If you are submitting via this new system for the first time, you will first be required to register. From the account you create, you will be able to monitor your submission and make subsequent submissions.

Papers are published without charge.

Copyright

Research papers and articles submitted to ARMQF should be original contributions and should not be under consideration for any other publication at the same time. The contributors warrant that the work is not an infringement of any existing copyright and will indemnify World Scientific of any breach of such warranty. The work submitted by the contributor and published by the journal will become the legal copyright of World Scientific unless otherwise specified.

General Guidelines

All papers must be submitted in English. Papers can be in either American or British English, as long as it is kept consistent throughout.

Review Process

All submitted manuscripts will be evaluated in the same manner with expectations for the same level of rigor and carefulness in methods and exposition.

ARMQF will have a double-blind review process, which means the reviewers are not aware of the authors' identities and vice versa. Only the assigned Co-editor, Associate Editor, authors and the ARMQF editorial staff view the reviews.

Ethical Standards

ARMQF strives to uphold the highest ethical standards in academic publishing.

- 1.Reviews:** Our Managing Editors and editorial board members seek to provide timely, open-minded, and constructive feedback to authors of submitted manuscripts.
- 2.Conflict of interest:** Managing Editors and editorial board members will not knowingly handle manuscripts that involve a conflict of interest (including in relation to any company and/or commercial product mentioned in an article).
- 3.Plagiarism:** ARMQF will not knowingly publish plagiarized research, including that involving self-plagiarism. ARMQF seeks to avoid self-plagiarism by asking authors of submitted manuscripts to cite all of their prior relevant research and disclose any overlap in data with their prior work.
- 4.Data use:** ARMQF welcomes continuing development of new research from a database but any new work must complement other research that uses the data.
