COOL, DUDE!  
Let's Explore Utah!!!

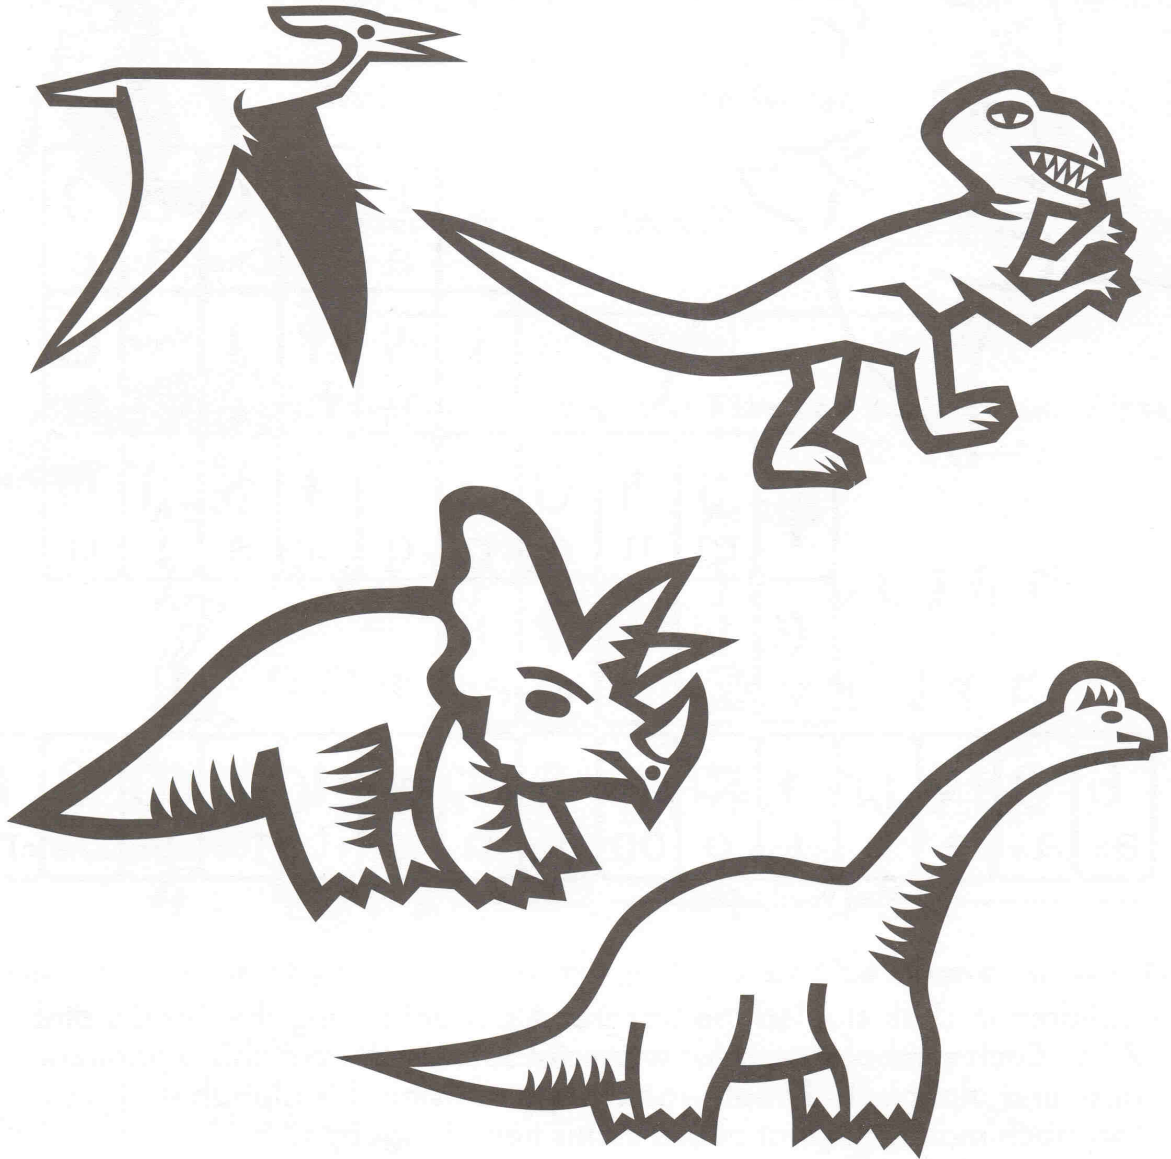

Children in Utah studied the Deseret Alphabet during the 1860's and 70's. Each symbol stands for a special sound. We call this a phonetic or sound alphabet. People soon stopped using this alphabet. It cost too much money to print books in this new "language."

Try writing words with the Deseret Alphabet. It takes practice but can be lots of fun. See page 32 for a Deseret Alphabet dictionary!

# Dinosaur Land

Some of the first creatures to live in Utah were dinosaurs. Many of these "Terrible Lizards" were bigger than houses! Now the dinosaurs are dead, and Utah is the world's biggest dinosaur graveyard.

Color the dinosaurs above. Then, look for them on the next page. Circle the small dinosaurs that are exactly like these four big ones.

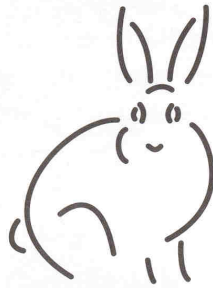

A black and white line drawing of a man. He is wearing a dark hat with a light-colored band, a dark vest over a light-colored shirt, and dark trousers. He has a large nose, thin lips, and is looking towards the right. The drawing is simple, with clean lines and no shading.

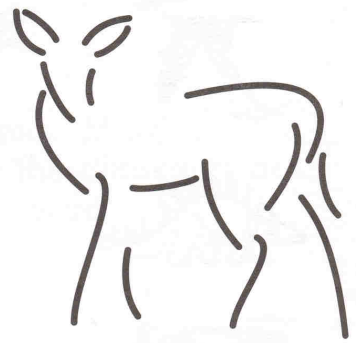

# Utah Natives

The Native Americans in Utah hunted many animals. They used animals for food, clothing, shelter and tools.

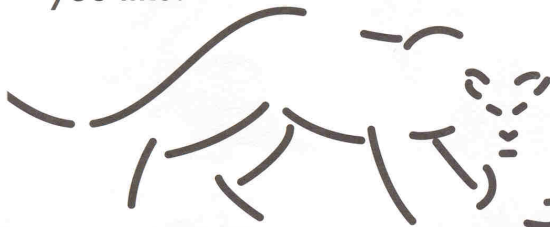

Unscramble the names of these animals that are native to Utah. Then color the drawings as you like.

Many Indians lived in Utah hundreds of years ago. Some left carvings on rocks. We call these carvings "petroglyphs." Think of it as art: Rock Art! Draw some pictures on the stone above.

Write only in this book! Do not mark or carve on real rocks! To see real rock art, visit Fremont Indian State Park near Elsinore or Newspaper Rock near Monticello.

Read any good rocks lately?

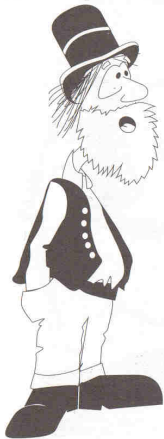

# Mountain Men

Jedediah Strong Smith was a western Mountain Man. He began trapping animals in 1822. He explored more of the West than Lewis and Clark. Smith read his Bible and prayed each day. He didn't use tobacco or alcohol.

The Mountain Men and friendly Indians all met at a "Rendezvous" each year. They mostly traded animal furs. They also had a big party for everyone. The first four meetings were in Utah from 1825 to 1828.

Look at the two Mountain Men above. Draw a third Mountain Man and color all three. Check page 30 for a list of Rendezvous that your family can go to this year.

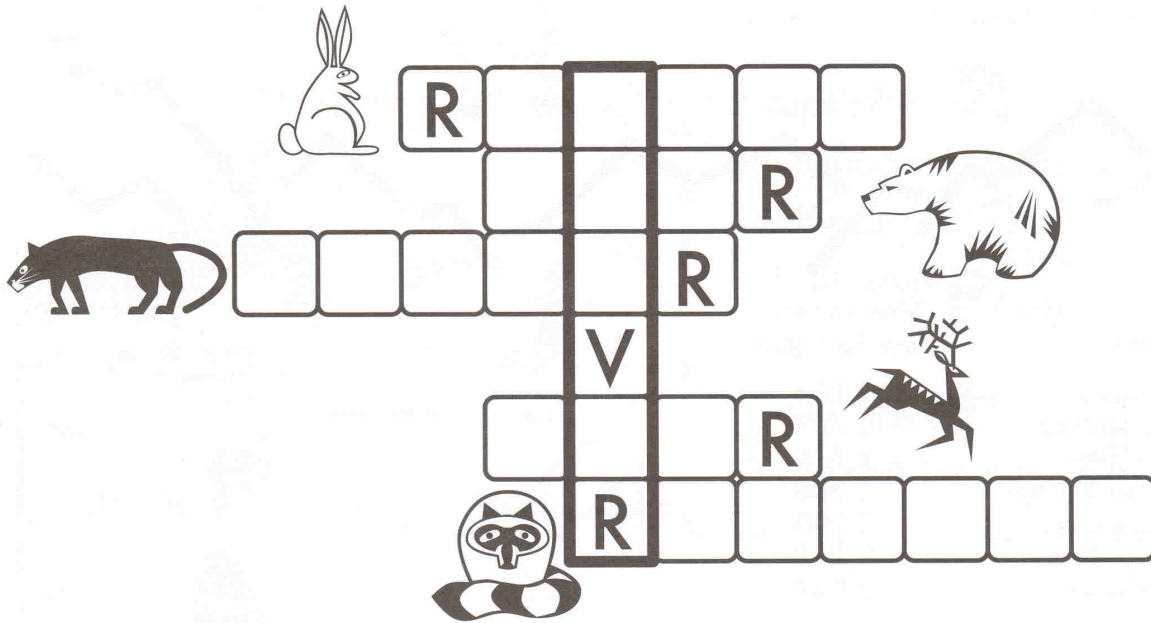

Utah's Cache Valley was a choice area for Mountain Men to hide or "cache" their furs and supplies.

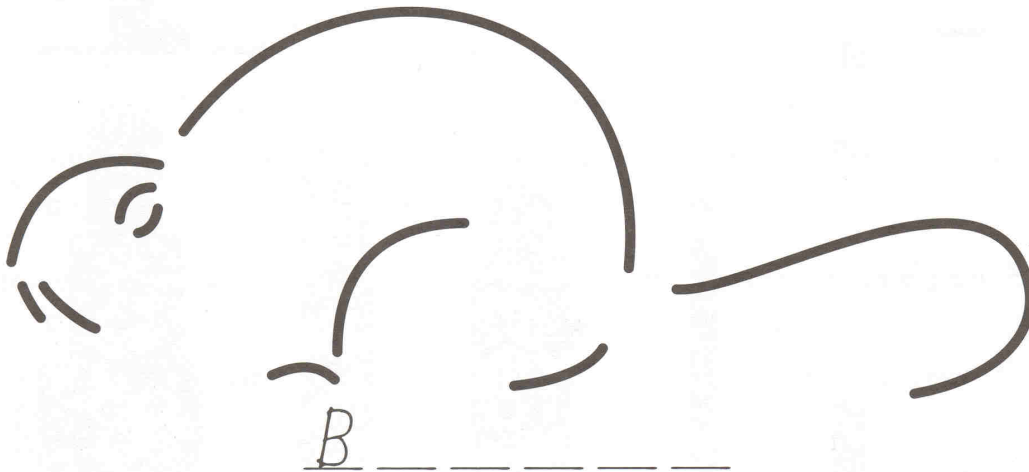

I always thought it  
had something to do  
with CASH \$\$\$ !!!

Complete the crossword puzzle below. When you finish, you will know the name of the animal most hunted by Mountain Men.

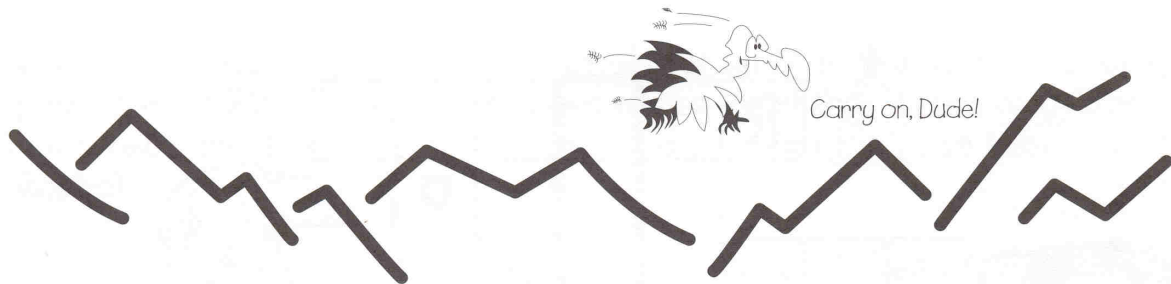

Write the animal's name in the spaces below. How many words can you spell using the letters you have just written?

[illegible]

Utah is the place to ski in 2002!

Here are some buildings in Utah and the U.S. They are all small compared to the mountains. Above are the heights (not altitudes) of mountains at some Utah ski resorts. Write the resort names in the correct spaces above.

# Pioneer Beehive Biscuits

Note: Do not use oil or butter

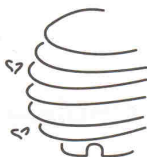

2 cups sifted   
 4 teaspoons baking powder  
 1 tablespoon   
 1/2 teaspoon  (salt)  
 1 egg  
 2/3 cup  (milk)  
 1/2 cup shortening  

Pre-heat oven to 350° F. Stir together , baking powder,  and  in a medium bowl. Add the shortening. Blend with a fork until it looks like coarse crumbs. Set this bowl aside.

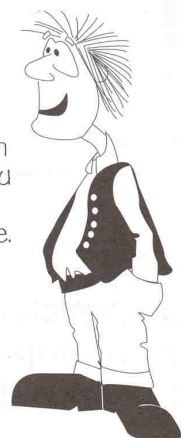

Put the egg and  into another bowl and beat for 30 seconds. Pour this mixture into the first bowl. Stir about 1 minute until the dough is mixed. Put dough on a floured board. Knead gently 20 times. Roll out the dough  to about 1/2 inch thickness.

Cut in circles about 2 1/2 inches wide. Space evenly on a greased pan. Bake at 350° F until lightly browned. This will be about 10 to 14 minutes. This recipe makes about a dozen biscuits that look like small beehives. Fill them with  and enjoy!

I like them with strawberries and whipped cream myself.

Try cooking Beehive Biscuits the way Mountain Men and Pioneers did. Use a Dutch Oven. If you don't know what one is, look closely at the Handcart Pioneer Monument on Temple Square.

# Seagulls to the Rescue

The first Pioneers entered "The Valley" in 1847. The next year, they planted wheat, corn and other crops. Before harvest time, a swarm of crickets began eating the crops. The Pioneers would starve without a good harvest. One day, a vast flock of sea gulls came and began eating the crickets. Soon, they ate all the crickets. The sea gulls saved the Pioneers.

**Step 1: Draw the legs and tail.**

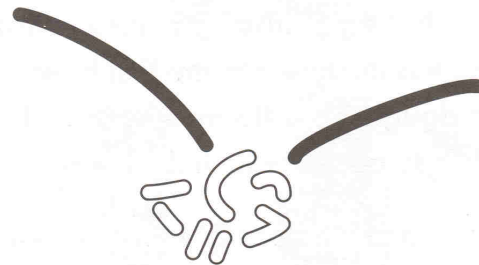

**Step 2: Add the body and beak.**

**Draw YOUR sea gull here:**

**Step 3: Finish by adding wings.**

The sea gull is the Utah State bird. For a good reason, too!

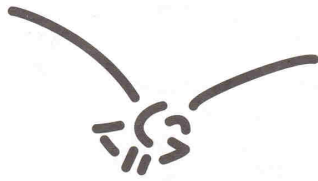

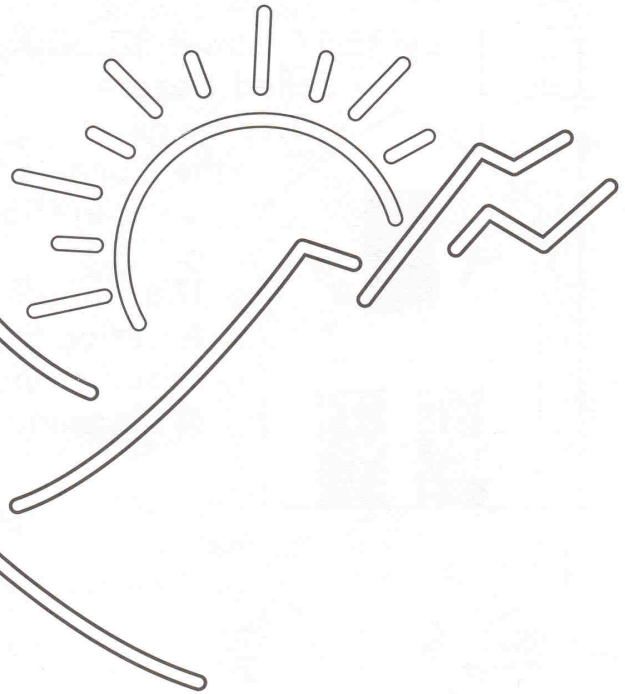

Visit Temple Square in Salt Lake City and see a statue built to honor the sea gulls.

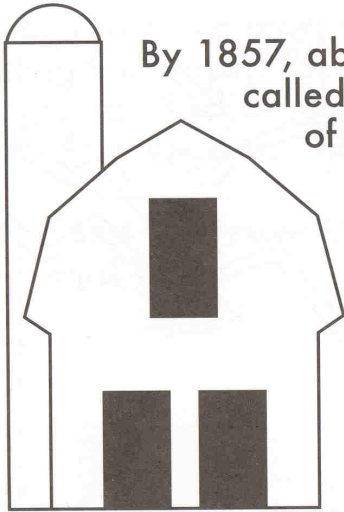

Draw a picture of the bird that saved the Pioneers. Complete the line drawing step by step as shown. Then help save the Pioneers by drawing a flock of sea gulls and a field of corn on the next page.

# Pioneer Settlements

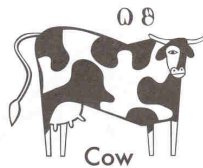

By 1857, about 80,000 people had come to the place they called Deseret. Brigham Young sent them to all parts of the new land. Thousands of people soon followed the Pioneers to the West. By 1930, they built 725 towns in Utah and the nearby lands.

The Pioneers were the first people in North America to farm with irrigation canals. They raised crops and animals for a living. Cross out each animal that doesn't belong on a farm.

Look in the Utah Travel Guide for other Utah Ghost Towns. Call 1-800-200-1160 for your FREE copy!

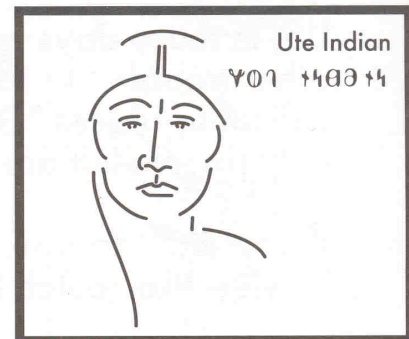

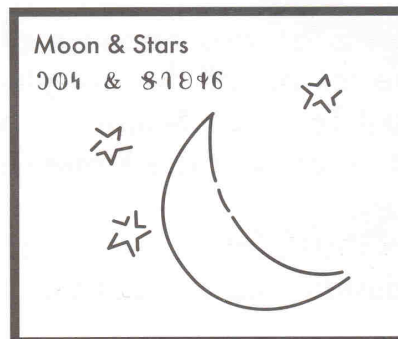

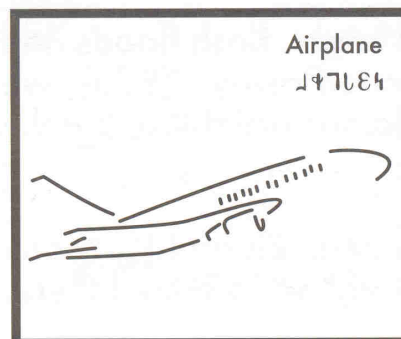

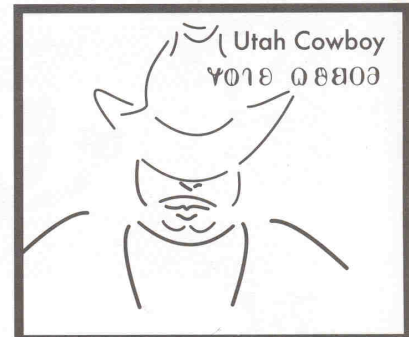

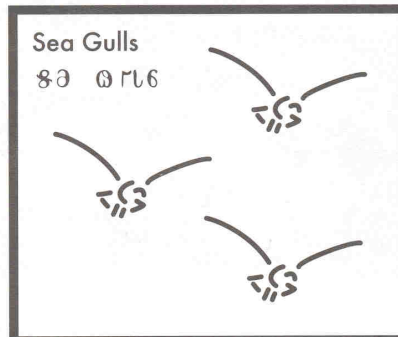

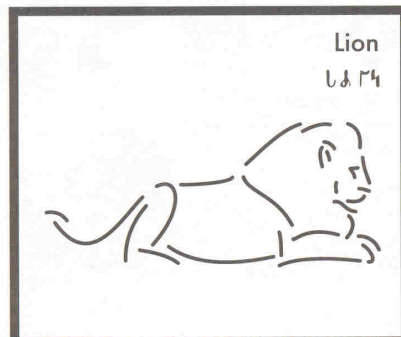

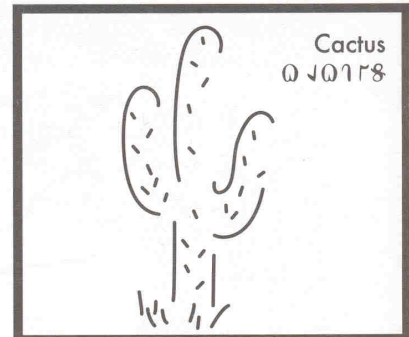

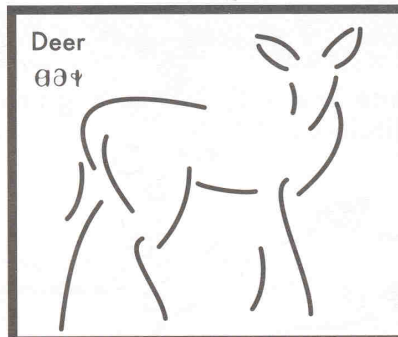

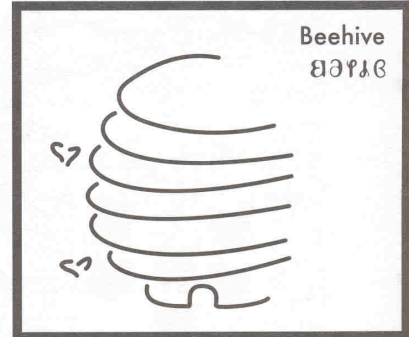

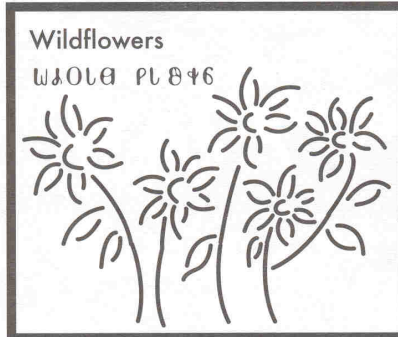

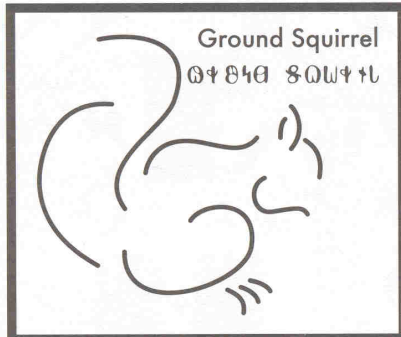

Life in those days was dangerous because of drought, flash floods and other trouble. In some towns, all the people moved away. Today, we call these places "Ghost Towns." Some old buildings are there, but the only people left are the ghosts of the Pioneers.

If you want to visit a Ghost Town, try Grafton near Zion N.P. Many movies, like "Butch Cassidy and the Sundance Kid," were filmed there.

# Beehive Bingo!

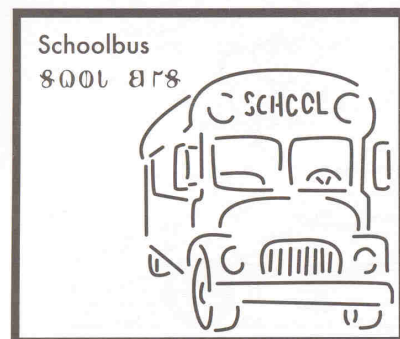

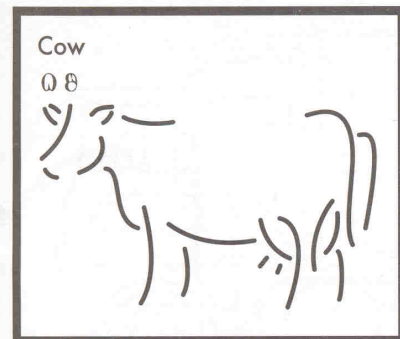

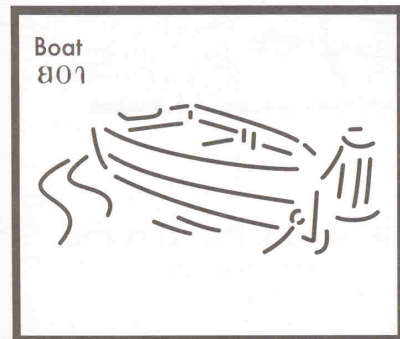

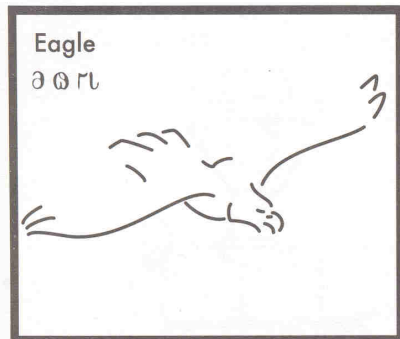

Here are some things that we might see while cruising Utah. When you see them, color the pictures. The first player to color a whole row in any direction wins the game.

## Try This Fun Memory Game

Look at the pictures on these two pages for one minute. Now, close the book and see who can remember the most pictures. Try playing with the Deseret Alphabet words too.

## Be a Utah "Roads Scholar"

When you tour Utah, try not to hurry. Take your time and relax. Travel the smaller roads this year. You'll have more fun and see more of the State.

Get your FREE copies of the Utah Travel Guide and the Official Utah Highway Map. For more details, call 1-800-200-1160.

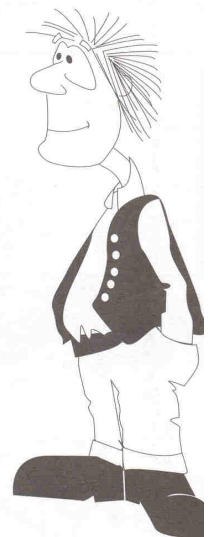

Cruise Utah's "Mother Road": Highway 89. You'll meet some great people and have an adventure you'll always remember. You'll also become a Utah Roads Scholar.

Remember to get your FREE Utah Centennial Passport booklet. Have it stamped in each of Utah's 29 counties during 1996. If you collect 10 different stamps, you win a poster. If you collect 20 stamps, you might win a Utah vacation. Collect all 29 stamps, and you can win a Grand Prize. Call 1-800-200-1160 or 538-1030 for more info.

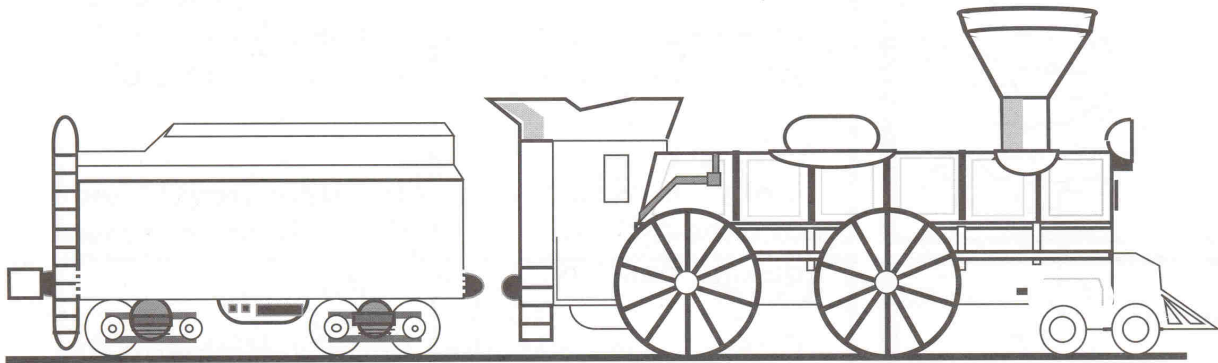

I'll try to remember that.

Be smart. Keep an eye out for Brion Zion and always wear a safety belt!

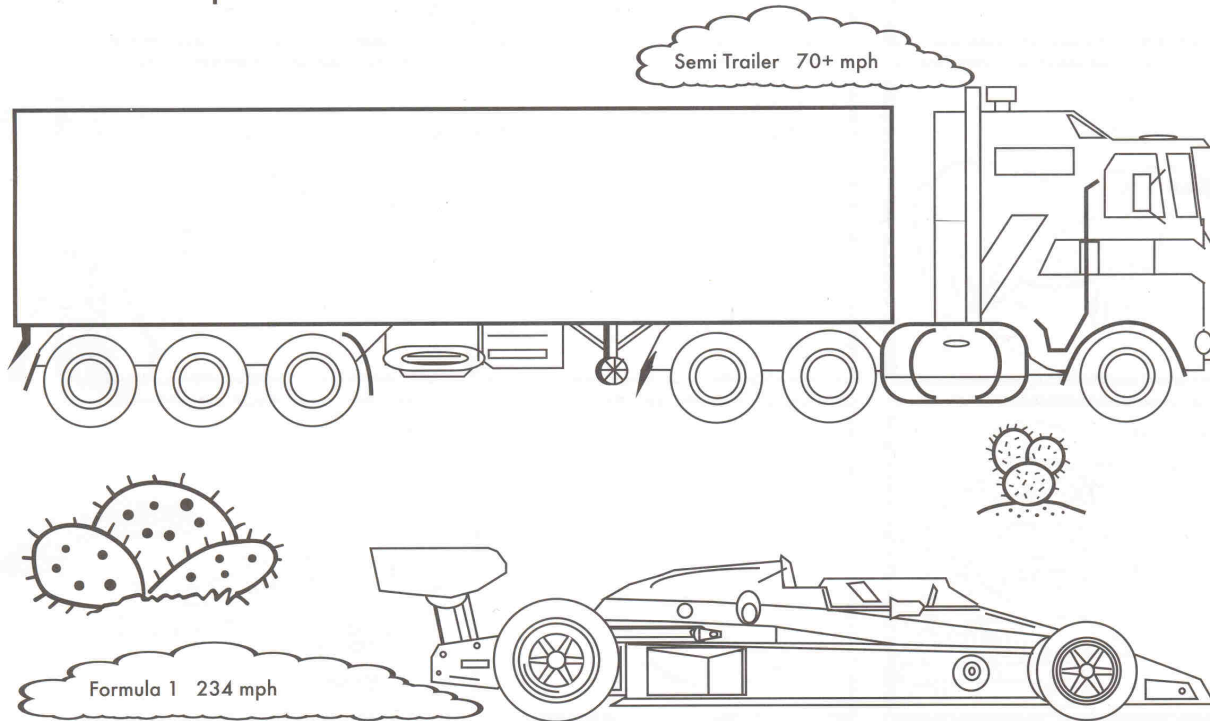

# *The Golden Spike*

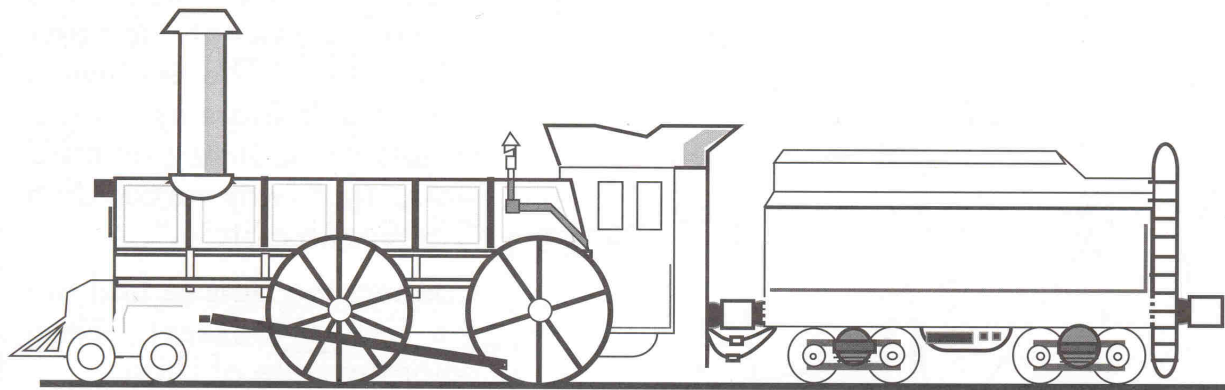

Utah is the "Crossroads of the West." First came the Indians. Next were the Explorers and Mountain Men. Then came the Pioneers. On May 10, 1869, a golden spike was hammered into place at Promontory Point, Utah. This completed our country's first coast-to-coast railroad.

The Bonneville Speedway lies in the salt flats west of Salt Lake City. It is the site of auto speed records. Color the race cars below.

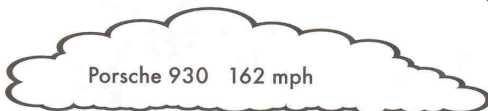

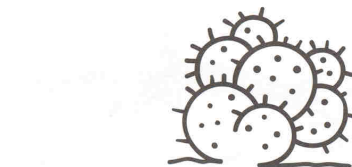

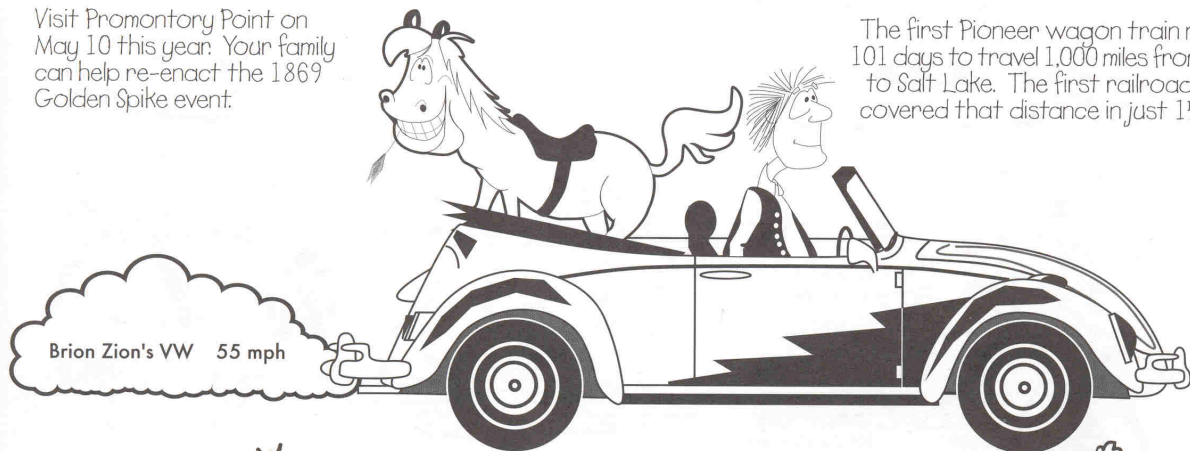

Look at the two trains below. Except for their special smoke stacks, they should be exactly the same. Draw any parts of the trains that are missing. There are at least ten.

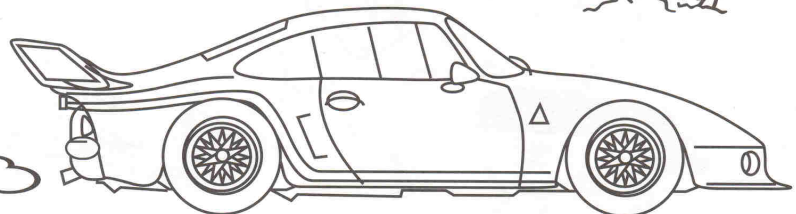

Visit Promontory Point on May 10 this year. Your family can help re-enact the 1869 Golden Spike event.

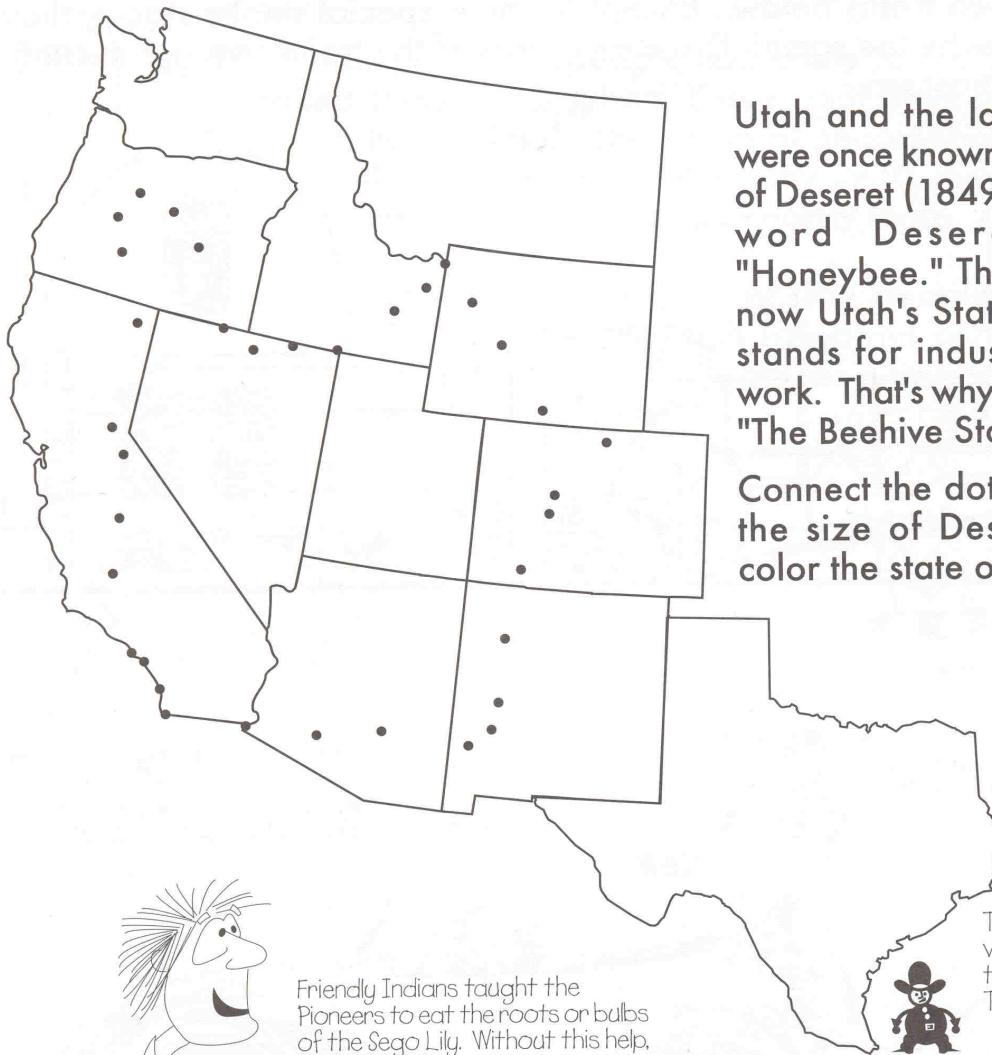

The first Pioneer wagon train needed 101 days to travel 1,000 miles from Iowa to Salt Lake. The first railroad trains covered that distance in just 1½ days!

# Utah, We Love Thee

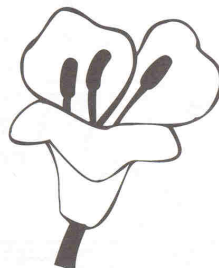

Utah and the lands nearby were once known as the State of Deseret (1849-1851). The word Deseret means "Honeybee." The Beehive is now Utah's State symbol. It stands for industry or hard work. That's why we call Utah "The Beehive State."

Connect the dots to find out the size of Deseret. Then color the state of Utah.

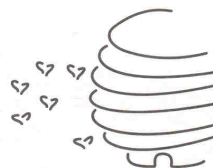

Friendly Indians taught the Pioneers to eat the roots or bulbs of the Sego Lily. Without this help, many would have starved.

**Sego Lily**  
(State Flower)

**The Beehive**  
(State Symbol)

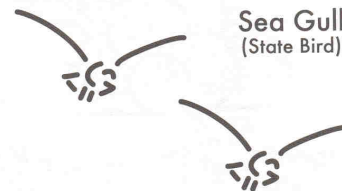

The State of Deseret was even bigger than the state of Texas!

That's BIG,  
Dude!

**Sea Gull**

In robes of state- hood dress'd U- tah, we love thee.  
She proud- ly comes to view, U- tah, we love thee.  
God guard- ed ev- er more, U- tah, we love thee.

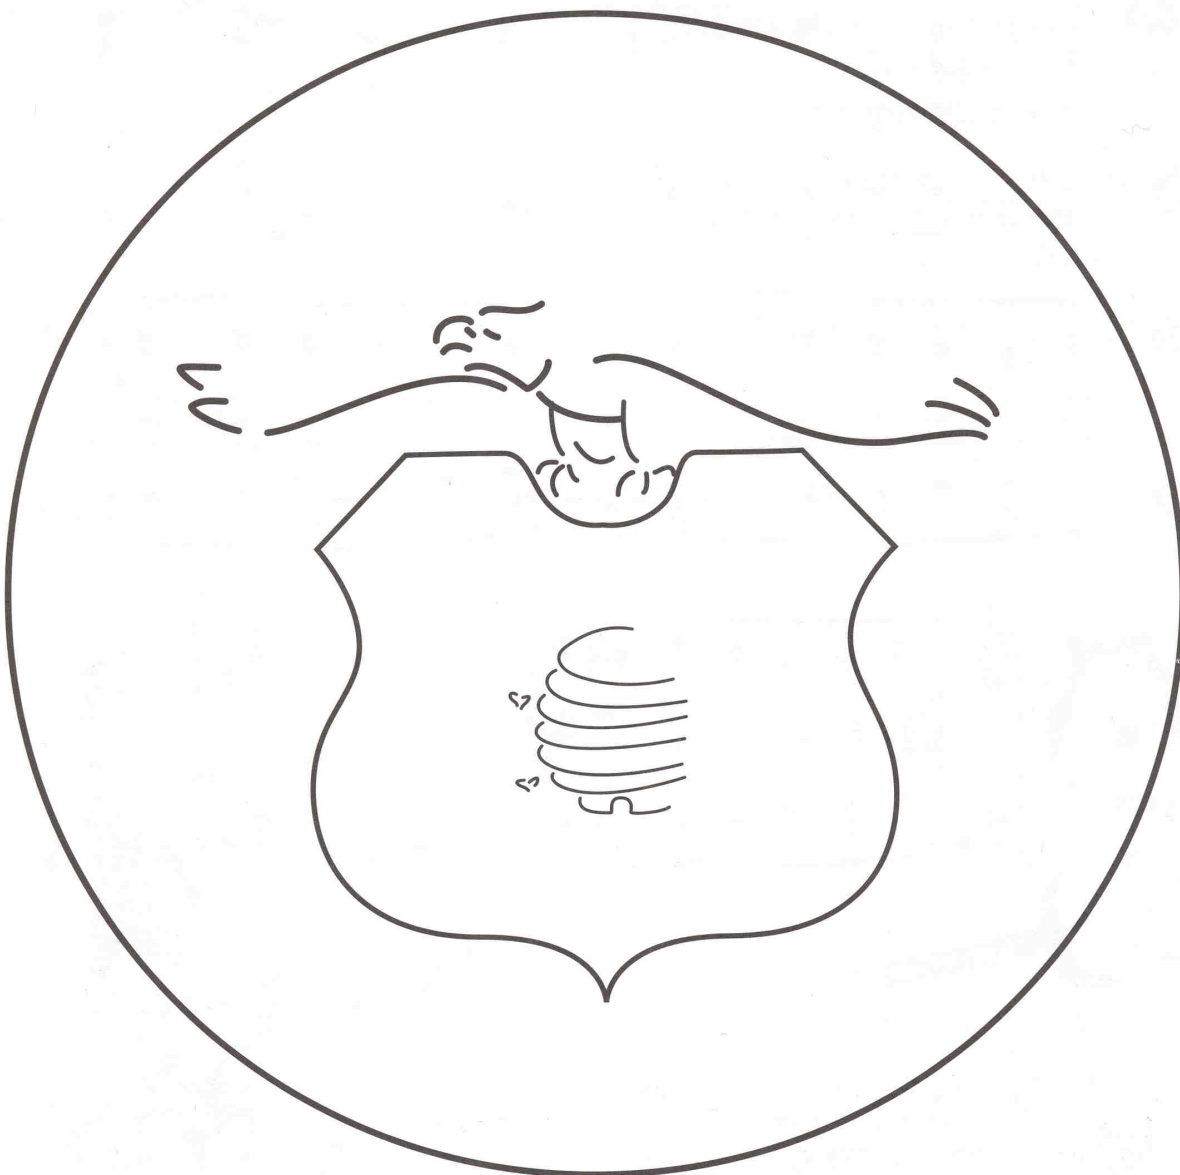

"Utah, We Love Thee" was first sung by a 1,000-voice chorus in the Mormon Tabernacle on January 6, 1896. Practice singing it with your family!

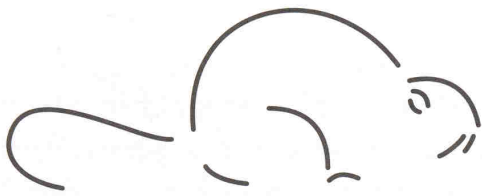

# Happy Birthday to Utah

Utah became the 45th State on January 4, 1896. In 1996, Utah celebrates her Centennial—that's birthday number 100. Help honor the Utah Centennial by exploring our great State!

Below is a drawing of the Utah State seal. Some parts are missing. Find a Utah flag and look at it carefully. Then, complete the drawing and color it.

My dog and I collect gemstones when we hike and bike around Utah. But we never take rocks from park areas. We leave them for others to enjoy.

I guess that makes me a Rockhound?

Brion Zion hunts for rocks with his Uncle John and Aunt Stella in Elsinore. He also likes to hike in Utah's five National Parks and 45 State Parks. Today, Brion Zion is hiking in Zion Canyon. Circle the things that he should take along.

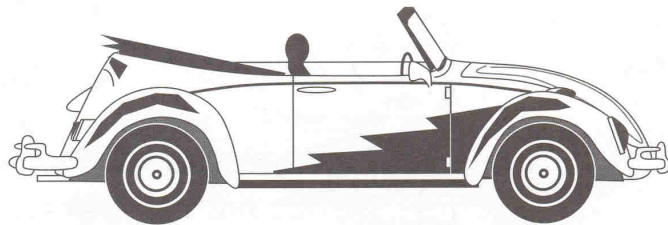

# Lost in the Deseret

Brion Zion is from Zion National Park. This Park is in the heart of the State of Deseret. His friends are from other National Parks found within the borders of Deseret. Look for them when you travel to Zion, Bryce Canyon, the Grand Canyon, Yosemite and Yellowstone.

**Help Brion Zion find his car and his friends so they can cruise Utah.**

**His car looks like this:**

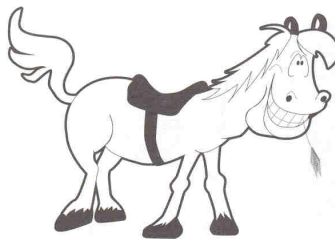

**These are his friends:**

Turn to the back cover of this book. Brion Zion's car and friends are hiding somewhere on the page. After you find them, try playing a game using the back cover as a gameboard.

Each player puts three coins or other markers on every other circle as shown to the left. Leave the center circle empty to begin. Take turns moving along the paths to an empty space. Do not jump over markers. You win when the other player cannot move a coin.

# UTAH in 2002: The Olympics

Since 1847, people from around the world have gathered to Utah. Brigham Young led the Pioneers in search of Zion, a place of peace and cooperation.
