LEGISLATIVE PROCEEDINGS

Friday, Jan. 19th, 1872.

Council - Met pursuant to adjournment.

Quorum present. A letter was read from J. L. High, Esq., Assistant Prosecuting Attorney, thanking the Council and House for the freedom of the Halls which had been extended to him. Also, one from Gen. G. R. Maxwell of the same purport.

The committee on Trades and Manufactures reported a bill in relation to strays and stray pounds, consisting of fourteen sections, which was read and filed. The bill provides that the revenue arising from the sale of strays shall accrue to the school fund.

The Council and House bills providing for the election of delegates to prepare a constitution for the admission of Utah, were both sent back to the committee with whom they originated for further consideration.

Mr. Harrington, chairman of the House committee, reported that they had reconsidered their bill and offered it again in an amended form, consisting of numerous alterations and one entire new section, authorizing the submission of the constitution to the people for their approval or disapproval. The bill was voted upon in its amended form by sections after which it was taken up on its second and third reading, passed and sent to the House for its concurrence.

[NOTE - It will be remembered that this bill in its original form did not authorize the sending of delegates to the Philadelphia Republican convention. It was on this account, no doubt, that it was substituted for the Council's bill and finally passed.]

The Council adjourned till to day at 11 a. m.

House - Met pursuant to adjournment; quorum present.

The financial report of Sampete county for 1870-'71 was received and referred to the Committee on Revenue.

Mr. Rockwood moved that J. Snow, Attorney General of the Territory, be requested to furnish the House, at the earliest practicable time, with the proceedings and decisions of the Supreme Court of the Territory relative to the jurisdiction of the Probate Courts and the Territorial Marshal, and inform it if any suits are now pending in connection with them; and if so to describe their nature. Carried.

Mr. Richards moved that the Auditor of Public Accounts be requested to report to the House, at his earliest convenience, if any demands had been made of him by M. T. Patrick, United States Marshal for Utah, for funds to defray the expenses of the District Courts for 1870-'71, if he had advanced any funds for said purpose; and if so what amount; also, if any suit has been instituted against him to test the right to the office he now holds; if he has had any correspondence with the Executive or other Federal officer of the Territory; and if so to furnish it to the House.

Mr. Rowberry asked if the House had any reason to believe the actions described in the motion had taken place. Mr. Richards stated that it was well known that considerable correspondence had taken place on the subjects named, and the object of his motion was to gain possession of this correspondence for the information of the House. The motion was seconded and carried.

A petition was received from J. S. Snedaker and fifty-two others, citizens of Salt Lake county, asking that new laws be passed relative to stray stock and recommending the establishment of an estray pound, and that estrays be held responsible for damages done by them. Referred to the Committee on Agriculture, Trade and Manufactures.

Mr. Taylor presented a bill for an act entitled, "An Act to amend an Act providing for the Incorporation of Companies for Mining, Agricultural and other Industrial Purposes." Read and referred to the Committee on Private Incorporations.

Mr. Taylor presented a petition from Wm. P. Appleby requesting that he be appointed a Notary Public. Referred to the Committee on Elections.

Mr. Taylor presented a petition from Orson Pratt, sen., asking for an appropriation of \$6,537.87 for remuneration of services rendered in the translation, to the Deseret Alphabet, of various books for the use of the Deseret University. Referred, with accompanying documents, to the Committee on Claims and Appropriations.

Rockwood moved the Auditor of Public Accounts be requested to furnish the House with a report of the financial condition of the University of Deseret. Carried.

The financial reports of Morgan County for 1870, and '71 were received and referred to the Committee on Revenue. Farr said he considered some immediate action necessary regarding the convention bill which passed the House several days ago as it was a matter of great importance to the people, and efforts should be made to place the matter before Congress previous to the adjournment of that body, and suggested the appointment of a committee to confer with the Council relative to what action was being taken by that body on the subject.

Adjournment till Saturday at 10 o'clock a. m.

A MORMON FOR THIRTY YEARS. We have to inform our correspondent that we shall be pleased to publish his communication on the receipt of his name, not for publication, but as a guarantee of good faith.

A MAGNIFICENT ROW OF HOUSES. - We were highly gratified recently by an inspection of the New York row of brick houses recently completed in the Seventh Ward for Mr. F. D. Clift of this city, and called Clift Place. In the erection of this handsome set of buildings Mr. Clift has done himself and the Territory generally a handsome service. They are built in what is sometimes technically called the American style. They consist of six three-story houses, each containing seven rooms and a basement. Each house is provided with a handsome bay window, hall and front staircase, with a servant's and children's staircase in the back part of the building. The windows are of large-sized glass; the lower window glass being 24 by 35 inches, and the upper windows of 15 by 32-inch glass. One of the chief necessities of a housewife - a good set of cupboards, with shelves, hooks and all necessaries - is found in each house. The entire row is crowned with a handsome mansard roof, with cut and painted shingles, ornamented with dormers to each upper roof, and a balustrade surmounting the whole. In addition to these conveniences and adornments, each house has a well enclosed yard to itself with coal shed, water closets, etc. A wagon road for the bringing in of coal, wood, etc., runs round the back of these yards, and doors are provided to each coal-house so that the coal can be shot in from the outside.

We are pleased to note the erection of these excellent houses, as they will inaugurate, we are assured, a new era in the business of house-building for renting purposes, in this Territory. They are a credit to the city, and will prove a profitable investment to their proprietor.

One of the most notable facts connected with Clift Place, is its erection so late in the year. Within two and a half months it has been begun and finished. For this fact much credit is due to Messrs. Tuttle and Cowan, the designers and builders, as well as to Messrs. Delany and Thompson, the plasterers. The painting, which is highly tasteful, is by Messrs. Russell & White; and for the class of houses we think could not be well bettered. That the painting might be speedily commenced, we are informed that the plastering was dried by a movable furnace.

The whole erection is a specimen of pluck, enterprise and energy, and deserving of every commendation.

The Harmony Literary and Debating Society will give a ball on the 24th of this month.

THE "CONVENTION BILL," as amended by the Council will no doubt pass the House to-day and we shall have the delegates here on the 19th of February to frame the State Constitution. Notwithstanding that there is no prospect of Utah's admission, the action of the one-hundred delegates chosen from all parts of the Territory on so important a matter; can but be looked forward to with a great deal of interest. For our own part we do not expect to see any guarantee in its provisions that the nation can accept as a solution of the Mormon difficulty. Theocracy must be knocked square in the head; and this the priesthood will not do.

TO THE PUBLIC OF OUR CITY. - Having leased the Grand Restaurant, I will on Wednesday morning, January 23d, be prepared to welcome my friends and the public at my new place of business, trusting by close attention to business, unceasing efforts to please, and the co-operation of the very best help in the city, to be able to render satisfaction to all, which I guarantee to do, or no charge. DEX. F. WATKINSON.

GALLERY, 25 CENTS. - We are pleased to learn that Thos. McKean, Esq., Professor Fowler's business manager, has sent instructions for a division of prices for admission to the forthcoming lectures. By the arrangement now made the price of tickets for seats in the lower part of the Institute will be 50 cents, as before, while the seats in the gallery will be reduced to 25 cents each. We think this arrangement judicious, as there are a large number of persons who are short of means at the present time who are very anxious to hear the lectures. This arrangement will bring the matter within their reach.

Return Tuesday, Thursday and Saturday. Office at Wells, Fargo & Co. J. A. J. W. CHISHOLM & SONS, Lewiston.

Their immediate facilities for transacting business enables them to control all their branches with the greatest ease to themselves and satisfaction to their customers. They are also agents for one of the very best pumps in use for the farmer and joiner, their great capacity making them more desirable for irrigation purposes than anything which has previously come within our notice.

JEWISH MARRIAGE. - We are advised by a post card of invitation that Mr. and Mrs. Leventhal will celebrate their marriage according to Jewish custom, Sunday January 21, 1872, at 4 p. m. at their home on Commercial Street in this city.

SWAMPING BILLS. - The Council yesterday found it necessary to exchange their bill providing for the election of delegates to frame a constitution, for the one originated in the House. This, we apprehend, was somewhat troubling to the pride of the Councilors, for they are approved to have too much of the priesthood resting upon them to make mistakes. But they had made a bad one, of which, through the condescension of their Gentile friend, they had been wrode aware, and in order to achieve success it became necessary to make the correction. To get matters right, and at the same time conceal the blunder, the imperfect House bill, which did not even provide for submitting the constitution to the people, for their adoption, was dug up after it had been virtually buried, and passed to meet the emergency.

We are not disposed to find fault with the honorable body for correcting its mistakes, by no means, we approve of its action and commend the priestly legislators on their complacence with the suggestions of common sense, which till very lately they have refused to observe. What we would impress upon them is that, with all their delegation of heavenly power, they are no wiser than men who lay no claim to such high privileges. In short we recommend them to lay aside their antiquated, impracticable notions and take hold of matters and things, like modern gentlemen and American citizens. If they really want to make Utah a State, let the requirements of Congress and the nation be met in a straightforward loyal manner, throwing up the sponge on the Kingdom of God rule; abandoning polygamy and complying with all the laws. Till this is done there is no use of framing constitutions; it is simply child's play.

There will be a vast amount of Railroad building in Utah the coming season - the extension of the Utah Southern, the completion of the Utah Northern to Soda Springs, and the building of a narrow gauge line by the English Co., from Lehi to Tintic and Ophir, together with the probable construction of a portion of the Denver and Salt Lake road already incorporated.

PAOR. W. HERRMANN is prepared to give private lessons in German, French, Latin and Greek, either at his own rooms at Levy's, on Main street, or at the residence of the students.

WOOD. - There was a considerable amount of wood on the streets yesterday, for which there did not appear to be much demand. It seemed to be of a better quality than has made its appearance for some time. Ye who like to be warm and are able to meet the expense, buy the poor man's load of wood that is brought from the mountain tops many miles distant - and don't forget to pay him for it.

JUST ARRIVED, at Walker Bros., 1,000 dozen English Ale and 500 dozen English Porter, in pails and quarts, best brands.

ALL accounts from East Canyon agree that the mines are improving and business looking up. This is largely in consequence of the addition of a roaster to Walker Bros.' mill, by which they are enabled to pay a much higher price for ores, and this gives renewed vigor to the development of the mines in that District.
